

## GoLocalise Sample Script | Charity (Water)

Right now, millions of people around don't have access to clean water. Many are forced to travel great distances to the nearest water source, and this water is often contaminated due to poor sanitation and contamination. This leaves millions, including children, vulnerable to waterborne diseases, which in many cases can be fatal. Every 2 minutes, a child dies from an infection caused by a lack of access to safe water.

You can help. By donating just £10 a month, you can help us to provide wells and access to clean water sources for families and communities in need worldwide so they can drink, cook, wash and use on their crops.

To donate £10 a month, please call the number on the screen now or go to our website to find out more.

Thank you.
